### Boost Your Brain with Breakfast

Studies have consistently shown that eating a healthy breakfast every morning contributes to maintaining a healthy weight and improving academic performance. A recent analysis of third-party studies and public data conducted by Deloitte for “Ending Childhood Hunger: A Social Impact Analysis” shows that food insecurity in early childhood is associated with impaired brain development, lower academic achievement and more frequent hospitalizations. School breakfast can have a potentially dramatic effect on students. On average, students who eat school breakfast have been shown to achieve 17.5% higher scores in standardized math tests, attend 1.5 more days of school per year, are 20% more likely to graduate from high school and typically earn \$10,090 more per year with a 4% higher employment rate after graduation. These factors can create transformative, positive change for our students. A student eating a healthy school breakfast tends to do better in school and attend class more frequently, which leads to greater job-readiness and self-sufficiency after graduation. Students that eat breakfast daily are set on a path to be less likely to struggle with hunger and obesity as adults.

### Other Important Information

MEAL MAGIC

The GISD uses a computerized cash register/point of sale system called “Meal Magic” that allows us to confidentially monitor student accounts, meal benefits, food allergies and food restrictions. Student purchases are recorded by class as the students receive their meal. Full meals, second entrees and extra milk cartons are available for purchase. Students should have money on account or cash in hand for a la carte purchases as they go through the service line.

PAYMENTS

The recommended form of payment for purchases is by check, but cash is also accepted. If sending a payment to the school, please put it in a sealed envelope with the student’s name and the amount of the deposit on the front of the envelope. No change will be given from a deposit. Meal Magic supports a history of deposits and sales for each student and allows parents to set limits on sales.

CHARGING POLICY

Please see the student handbook for the district charging policy. Deposits can be made to a student’s account at any time to provide a meal when a student forgets their lunch money or lunch from home. Balances are maintained and carried over from prior school years.

FREE/REDUCED APPLICATIONS

You can apply online for free and reduced price meal benefits at [www.LunchApp.com](http://www.LunchApp.com). This is the fastest and most secure way to apply for benefits. Paper applications are available in every school office during the school day and in the cafeteria during times that meals are served. Paper applications may take up to 10 days to process. Applications are accepted at anytime throughout the school year.

PREVIOUS 2016/2017 SCHOOL YEAR BENEFITS

Students who were eligible for free or reduced price meals at the end of the 16/17 school year at the GISD will automatically be eligible for meals at the beginning of the 17/18 school year until October 20, 2017. After that date, a new application must be processed and approved by the Child Nutrition Office for students to be eligible for benefits. It may take up to 10 days to process an application before benefits become available. Families are responsible for paying for meals until an approved application is on file. Please submit new applications early to avoid a lapse of benefits. Parents and/or guardians will be notified by US mail as to the student’s eligibility.
